U. S. HALF CENTS

CATALOGUERS' NOTE

This fine collection of Half Cents is attributed both to Gilbert and to the Breen numbers as they have appeared in the recent catalogues, and the basal values are the same. Where we call coins "finest known" this is based on statements found in those catalogues. In the light of the prices lately realized by top-grade half cents, we think it only just to estimate "finest knowns" at double book value, and "condition census" coins at 1½ times book value, the same as Dr. Sheldon did on the cents from this collection.

- 1029 1793. Breen 1:1-A. Gilbert 4. Mint State. Glossy natural light olive with bluish overtones. Early state of the dies, and well struck up. Absolutely perfect except for not being mint red. The only one of the variety known in Mint State; the finest known by far. Much rarer than a Liberty Cap cent in the same condition. (Book, 65 x \$2.75 x 2).

- 1030 1793. B-2:1-B. G-3. Very Fine. Mottled light and dark brown. Mishandling marks in field, and two planchet defects like large pit marks on head, but very sharp. Early state of the dies. From the Alvord Collection. (Book, 25 x \$2.50).

- 1031 1793. B-3:2-B. G-1. Fine 20, but with a few pit marks and minor edge dents on obverse. Strong everywhere except at borders. Chocolate brown. (Book, 20 x \$2.25).

- 1032 1793. B-4:2-C. G-2. Very Fine. Even wear on the high surfaces. Few minor edge nicks. Glossy reddish-brown mingled with brick red. Like all 1793 coins above Fine, brings a premium as a coveted date. (Book, 25 x \$2).

- 1033 1794. B-5:1-A. G-9. Gynandroid Head; Pointed 9. Almost Extremely Fine. Dark brown and steel, mingled with lighter brown. Slight edge bruise on reverse. Well centered. Beautiful "type" coin. (Book, 25 x \$1.50).

- 1034 1794. B-6:2-B. G-5. Very Fine; obverse a little better, reverse weaker. Medium steel and brown. Edge nick over E on obverse. Badly injured obverse die. "Prohibitively rare choice." (Book, 25 x \$1.50).

- 1035 1794. B-7:3-C. G-8. Divided Date. Very Fine-25. Medium steel; a beautiful coin for the condition, and nearly as sharp as the Ryder example which brought \$110. If that one was third finest then this one ought to be fourth or fifth. No defects worthy of mention. (Book, 25 x \$2).
- 1036 1794. B-7. Duplicate. This was Fine-15, before obverse was scraped across face, Dr. Sheldon attributes this to the sliding of celluloid strips in a coin album. With this exception, the coin is bold and clear, and a pleasing glossy reddish-brown and steel. (Book, 15 x \$2).

- 1037 1794. B-8:3-D. G-6. Slender "cent type" wreath. Fine, but with a bad gouge at center of reverse. Pleasing mottled light brown. Very rare variety. (Book, 10 x \$3).

- 1038 1794. B-10:4-E. G-4. "Cent Type" wreath, as last. Almost Extremely Fine. Rich, warm brown, and from the earliest state of the dies, like the Ryder coin. Sharp and very beautiful. A premium coin. Alvord Specimen. (Book, 35 x \$1.75).
- 1039 1794. B-13. Duplicate. Very Fine, but highest point of hair rubbed, evidently by celluloid slide in a coin album. Reverse somewhat roughened. Otherwise like the last, even to the edge bruises. Above average. (Book, 40 x \$1.50). Alvord Specimen.

- 1040 1794. B-13:5-B. G-1. High Relief Head. Better than Extremely Fine; nearly a 50-coin, but for a couple of minute edge bruises. Lustrous olive and mottled brown. Very beautiful. Another "type" coin. (Book, 45 x \$1.50). Better than the Ryder coin by far.

U. S. HALF CENTS

- 1041 1794. B-13. A third. Fine or better, reverse lightly pitted over a wide area. Dark steel-gray. (Book, 15 x \$1.50).

- 1042 1795. Lettered Edge. B-14:1-A. G-1. Extremely Fine, a pale reddish color. Insignificant handling marks, but very sharp, and a desirable "type" coin. (Book 35 x \$2).

- 1043 1795. B-14. Duplicate. About Very Good, evenly worn, light brown, but badly nicked and with edge bruises. (Book, 6 x \$2).

- 1044 1795. B-15:2-A. G-3. Lettered edge; Punctuated Date. Fully Extremely Fine, but edge bruised near cap. Pleasing pale brown and steel. Rare condition for this coin; better than Ryder's, and worth full book value as a very scarce "type" coin. (Book, 35 x \$2).

- 1045 1795. B-15b:2-A. G-8. Pole; Punctuated Date. Plain Edge. Rarity 7. Fine or better; obverse Very Fine for the coin, reverse weak in the center as on all specimens known, and with advanced die sinking as on the Ryder coin. Marred by having a small segment, about $\frac{3}{8}$ " long, clipped or shaved off the edge opposite the pole, but this does not impair the legend or device. Not one of the six known when the Ryder collection was catalogued, this piece is from the Commodore Eaton collection, (more than twenty years ago). Excessively rare, and one of only two specimens ever to come up at auction. (Book, 15 x \$10).

- 1046 1795. B-16:2-B. G-7. Punctuated date. Pole to Cap. The other Rarity 7 of this date. Almost Extremely Fine; beautiful light brown and steel. The only flaw worth mentioning is slight edge damage over ERTY on obverse. Well centered, beautifully struck, and from the earliest state of the dies, with HALF CENT plain and strong. Second only to Mr. Brobston's coin. Far superior to the one sold last year for \$77.50 which was well above its book value. Rarer than the 1796 without pole, as about nine examples are known. This coin cost \$375 more than twenty years ago, and is worth much more today. Will probably bring a record price.

- 1047 1795. B-17:2-C. G-4. About Very Good, but has apparently been lightly polished, as it is smooth as glass. Reverse entirely gone at center. Nice strong date. (Book, 4 x \$1.50).

- 1048 1795. B-18b:3-C. G-6. No Pole. Thick Flan. Strictly Fine; reverse obliterated at center from die sinking, as always. Pale brown and steel. Edge dents below date. Very rare with the thick planelet. (Book, 12 x \$2.50).

ERVIN

- 1049 1795. B-19:3-D. G-5. No Pole. Mint State. Natural lustrous light brown mottled with darker shades, as usual for this variety when struck on Talbot, Allum & Lee tokens, as are all four specimens here offered. Late state of dies; obverse border weak at right. CENT visible under date. Not in the Ryder Collection. Choice. (Book, 60 x \$1). Alvord Specimen.

- 1050 1795. B-19. Duplicate. About AU-50. Darker than the last, and not as well struck up. NEW YORK plainly visible at left obverse and under date. Uneommon. (Book, 50 x \$1). Riley Collection.

R.P.

- 1051 1795. B-19. A third. Extremely Fine; touch of friction on the high spots on reverse, otherwise similar to last. Part of ship's rigging below date. Uneommon condition. (Book, 45 x \$1). Alvord Collection.

ERVIN

- 1052 1795. B-19. Fourth and last. Extremely Fine strikingly mottled. ALLUM at right obverse border. Obverse is Extremely Fine, but reverse is somewhat rubbed on the leaves. Beautiful natural colors, difficult to describe. (Book, 40 x \$1).

FINEST 1796 POLE EVER AUCTIONED

2300.
D. EVANS

- 1053 1796. B-20:1-A. G-1. *With Pole*. Full Mint State; much original mint red on both sides, blending attractively to light brown, and a highly glossy natural surface which could not be improved. If the Ryder coin at \$1600 is the second finest of the variety, then this coin is probably the finest, or equal to the finest known. It cost \$750 over twenty years ago, and is believed to be the original McCoy-Levick-Zanoni-Miller-Newcomb-Green coin. A real prize. (Book, 65 x \$20 x 2).

ONE OF THE FINEST 1796 NO POLE EXTANT

3000.-
D. EVANS

- 1054 1796. B-21:2-A. G-2. *Without Pole*. Rarity 7. Uncirculated; full sharpness of Mint State, and some original mint surface which has toned to a delicate natural light steel. Obverse border not struck up at right; reverse marred by many tiny nicks within the wreath, visible with a glass. One of the finest extant of this extreme rarity, equal to the Eliasberg coin and the Showers coin. This one came from the Brand collection at a cost of \$800, and is worth three times that figure today. Superb. (Book, 65 x \$35 x 1½).

Note. It would be our fondest wish to see these two coins stay together in a single collection. It would be a shame if such a pair were to be separated after so many years. As an almost perfectly matched pair they are prize-winning exhibit coins.

- 1055 1797. B-22c:1-A. G-2. Low Head; Plain Edge. Same dies as the Lettered Edge coin, and nearly as rare. Better than Very Fine. Overstruck with the dies of 1798 cent, Sheldon 164 (now Rarity 5), the date 1798 showing and obliterating the last digit of the half-cent's date as well as the profile. No defects worthy of mention. Only two other similar overstruck examples known, though this variety often comes on planchets cut down from mis-struck cents, like the 1802. One of the most unusual coins in the collection. (Book, 25 x \$3.50).

1056 1797. B-22a: 1-A. G-1. *Lettered Edge*. Very Good for this miserably struck variety, but impaired by a number of small nicks on both sides. Weak at upper right reverse as always. A famous and very rare "type" coin, which is impossible to get in choice condition. (Book, 5 x \$10).

ANK

1057 1797. B-22c. G-2. Duplicate, not overstruck. Not an unnatural rainbow of tints. Little off center, about Extremely Fine.

ES

1058 1797. B-23:2-B. G-4. 1 over 1. Full Mint State, with original mint red blending with light brown. Overstruck on a Talbot, Allum & Lee token; ONE visible below date. Flawless. Beautiful, and rare in this condition. Ryder's was only Fine to Very Fine, and it brought well over book value. This one should bring a record price. Earliest state of the dies. (Book, 60 x 80c).

150.-

1059 1797. B-23. Duplicate. Extremely Fine-45, the obverse about condition 50, the reverse with slight friction on leaves. Attractive olive with bluish overtones. Obverse lightly cracked, reverse still perfect. (Book 45 x 80c).

37.50

1060 1797. B-23. A third, in about equal condition. Lustrous brown and olive. Full sharpness of AU-50 but obverse marred by a few microscopic pit marks and one edge nick at right. Shattered dies; overstruck on a Talbot, Allum & Lee token. (Book, 45 x 80c). Brand Specimen.

55.-
GR

1061 1797. B-23. A fourth. Shattered dies, as last. Better than Very Fine, but weak because double struck, the two strikings about 20° apart, and "mutually obliterative." Lustrous darker olive and steel. Unusual. (Book, 25 x 80c).

25.-
ALP

1062 1797. B-23. Fifth and last. About Very Fine; freak coin, obverse struck over reverse, and vice versa; the piece evidently "did a flip flop in the press." Shattered dies, as preceding. Even brown and steel. Should be seen. (15 x 80c).

22.-
MKA

1063 1797. B-24:3-B. G-3. Centered Head. Very Fine, poorly struck up, and marred by faint obverse scratches and reverse edge bruises. Glossy light brown. Scarce "type" coin. (Book, 15 x \$1.25).

27.50

1064 1797. B-24. Duplicate. Very Good to Fine. Glossy dark steel color. Reverse nicked and edge bruised, obverse better. (Book, 8 x \$1.25).

DRAPED BUST HALF CENTS

110. ✓
1065 1800. B-25:1-A. G-1. Full Mint State. Blazing red Uncirculated. Slightly dulled on reverse, and spotted near I of AMERICA. Old nick on brow. Traces of rim breaks at LIB. Far better than the Ryder coin which brought \$25. One of the best. (Book, 65 x 25c x 1½).

400. ✓
BE
1066 1802. B-26:1-A. G-2. Reverse of 1800. R-7. Almost an exact duplicate of the Ryder coin which brought \$300 as "Fine-12" and "finest known," the same in sharpness, color, weaknesses of striking, and mishandling marks. This should be the second finest of only seven specimens known. Fine for the coin, and excessively rare. Worth a high premium. (Book, 12 x \$12.50 x 1½).

- 62.50 ✓
142 ✓
1067 1802. B-27:1-B. G-1. The regularly seen variety. Very Fine, medium steel and darker brown. Wreath shows at left obverse edge, evidently because the planchet was made from a misstruck cent cut down. Few minor obverse nicks, reverse faint edge dents, of no importance. Early state of dies, but HALF CENT already very weak as on later ones. An exceptional specimen despite the defects noted. (Book, 15 x \$3).

30. ✓
1068 1802. B-27. Duplicate. Nearly Fine, also medium steel; few very faint old scratches on obverse. Far above average, because relatively clean, and rare so. (Book, 8 x \$3).

160. ✓
1069 1803. B-28:1-A. G-1. Eleven Berry Reverse. Mint State, mainly light olive with traces of original mint red on both sides, particularly on reverse. Obverse not fully struck up; reverse exceptionally sharp for the variety. Few old faint scratches on face and neck. As rare as the 1802, and one of the finest. (Book, 60 x 50c x 1½).

20.- 1070 1803. B-29:1-B. G-2. Mint State. Mostly medium olive and steel with some mint red. Hidden dent in hair, otherwise flawless. Uncommon condition for this coin. (Book, 55 x 25c).

37.50
BN 1071 1803. B-30:1-C. G-4. Fine or better, but nicked up on both sides. Even, glossy rather dark steel. Heavy rim break over STAT. About as rare as the 1804 G-11; formerly an R-7, now only R-6. (Book, 12 x \$2.50).

45.- 1072 1803. B-31:2-D. G-3. Close Denominator. Mint State. Attractive light olive and tan. Flat at upper leaves. Nearly or quite equal to the Ryder coin which brought \$26. Ex Brand. (Book, 60 x 25c).

9.-
NK 1073 1804. B-32:1-A. G-6. Reverse of 1803. Fine and Better, medium steel. Reverse heavily cracked. Few small pit marks on both sides. Distinctly better than the Gilbert Plate coin. Rare in top condition. (Book, 15 x 50c). PLATE. None in Ryder Sale.

100.- 1074 1804. B-34:2-B. G-10. The low 4. This coin would be Very Fine or better, but is rough on reverse, scratched and nicked on both sides, and dented on both edges. Dark steel and brown. Now rarer than the highly touted G-9 and 11. Somewhat better than the Pawling coin. Fine but burnt, which brought \$16.50. A low R-7. (Book, 15 x \$5). PLATE. Commodore Eatons Collection.

40.- 1075 1804. B-35:3-B. G-11. Spiked Chin. The Bisecting Crack. Fine or better, rich warm brown mingled with darker brown. Faintly scratched on obverse. Reverse weak at top as always. About the equal of the Downing piece, which brought \$21 at the 1952 ANA Convention Sale; better than any specimens since then offered. Attractive and very rare, formerly R-7. (Book, 15 x \$2.50).

10.-
AB 1076 1804. B-36:3-C. G-9. Spiked Chin, Leaf at F. Fine. Obverse slightly sharper but nicked and scratched; reverse evenly worn. Crack at OF A, as on many of those now known. Medium brown and steel. A high R-6, perhaps a shade rarer than the Gilbert 11, but a much more famous variety. (Book, 15 x \$3). Commodore Eatons Collection.

- 1078 1804. B-38:3-E. G-7. Common Spiked Chin; Break through R. Very Fine; obverse nice, reverse with one or two minor edge bruises, and a corrosion spot at top. Medium steel, mottled with brown. (Book, 20 x 15c).

- 1081 1804. B-41:5-F. G-3. Crosslet 4; Stemless. Mint State. Mint red and light brown; green spot at TE of STATES. Only three known in Mint State, according to the Ryder catalogue. Highly desirable, and a very rare "type" coin in this condition. (Book, 60 x 25c x 1½). Brand Specimen.
- 1082 1804. B-41. Duplicate. Extremely Fine, nicked. Rusted obverse die. A freak coin, as the reverse is double struck, the two strikings about ½ mm. apart, and "mutually oblitative." Highly unusual.
- 1083 1804. B-42:6-F. G-2. Common Plain 4, stemless. Uncirculated. Lustrous light brown and light olive. Equal to the Ryder coin which brought \$11, and "type" coin. (Book 55 x 12½c).
- 1084 1804. B-42. Duplicate. Better than Very Fine, though nicked and not well struck up, but a freak. Part of olive branch on hair, and ONE CENT faintly on face and hair; apparently the same principle as a brockage, but all of devices visible. Unusual, probably rare.
- 1085 1804. B-43:6-G. G-1. Plain 4, stems. Very Fine, but gashed through CENT, and nicked on both sides. (Book, 10 x 75c).
- 1086 1805. B-44:1-A. G-4. Small 5, Stems. Reverse of 1803. From the Commodore Eaton Collection and \$375.00 was paid for this excessive rarity, only 2 are known in this condition. R.7. Very Fine but burnished, tooled and retouched.
- 1087 1805. B-45:1-B. G-3. Small 5 stems; swell before face. R-7. Very Good or better, and only three known according to the Ryder catalogue. Almost unobtainable in Fine. Dark brown blending with lighter brown. Insignificant handling marks on both sides. Cleanly and evenly worn; weak at CE of CENT as on all ten known specimens. Cat. \$40 Fine, but worth more. (Book, 8 x \$5).

7.- 1088 1805. B-46:2-B. G-2. Large 5; stems. Very Fine, pale steel color. Early state of dies. (Book, 20 x 20c).

15.- 1089 1805. B-47:3-C. G-1. Stemless. Extremely Fine. Obverse light, reverse medium brown, not well struck up on head. Attractive. (Book, 45 x 20c).

190.- 1090 1806. B-48:1-A. G-2. Small 6. Stems. About Uncirculated with full mint lustre. Burnished. Now resembles a proof, one of the finest. Very rare.

DN 1091 1806. B-50:2-B. G-1. Stemless. Very Fine-30; equal to the Ryder coin. 12.- Chocolate brown. Popular "type" coin. (Book, 30 x 12½c).

12.- 1092 1806. B-51:3-C. G-3. Large 6; stems. Brilliant red Uncirculated, weak at top wreath, and with several dark spots, as are practically all of the coins from the Chapman hoard. Considerably better than Ryder's, which was only AU-55. Slightly scraped in right obverse field, and lacquered to prevent tarnishing. 4LB

13.- 1093 1807. B-52:1-A. G-1. About Uncirculated. Mottled medium and darker brown. Fully equal to the Ryder coin which brought \$15; from the same die State and if anything a little sharper on hair. Rare condition. (Book, 50 x 20c).

140.- 1094 1808/7. B-53:1-B. G-1. About Uncirculated. Beautifully mottled light olive and darker brown. Perfect dies. Fully equal to the Ryder coin perhaps superior because that one was cleaned, whereas this one is untouched. Extremely rare in this condition, according to the Ryder catalogue. Cost \$75 many years ago. (Book, 50 x \$1 x 1½c). 40

17.- 1095 1808/7. B-54. Duplicate. With the heavy and rare rim break over TY. This piece was About Fine but has been cleaned around LIBERTY evidently to remove corrosion. RK

6.- 1096 1808. B-55:2-B. G-2. About Very Fine, but with several pinpoint nicks on both sides. Glossy medium brown mottled with darker brown. Reverse upset 180° from normal. Unusual. (Book, 15 x 40c).

4.- 1097 1808. B-55. Duplicate. Fine, steel and brown. Reverse upset 45° from normal. (Book, 12 x 40c).

CLASSIC HEAD HALF CENTS

- 750 1098 1809. 6. B-56:1-A. G-5. Very Fine, pinpoint edge nick on reverse. Pleasantly mottled in various shades of brown. Popular type coin. Has brought up to \$17.50 in similar condition. (Book, 25 x 25c).
- 45-
DM 1099 1809. B-57:2-B. G-1. The Inner Circle Variety. Very Fine, medium steel. Die beginning to fail at upper right obverse, and lower right reverse. Very scarce "type" coin, much scarcer than the popular overdate. (Book, 20 x 25c).
- 1100 1809. B-58:3-C. G-3. Close Straight Date. About Uncirculated. Full sharpness of Mint State, traces of red on reverse, and mint surfaces toned to light and darker olive, but scratched before face. If there are only three known in Mint State, as the Ryder catalogue claims, then this is certainly the fourth best out. Evidently very rare in this condition, since the Gilbert Plate coin is only Very Good. Worth nearly as much as the Ryder coin which brought \$37. (Book, 55 x 50c).
- 1101 1809. B-59:4-C. G-4. Wide date. Mint State. Mostly lustrous and iridescent light olive with some traces of mint red. Picayune edge nicks. Highly attractive, though not rare. (Book, 60 x 20c).
- 16- 1102 1809. B-60:5-D. G-2. Mint State; mint brilliance has faded to a pleasing light golden-brown and olive. Rather weakly struck, but otherwise flawless. A common coin in choice condition. (Book, 60 x 15c).

- 70- 1103 1810. B-61:1-A. G-1. Mint State. Obverse iridescent medium olive, reverse mostly mint red blending with light olive. Weak stars at right and weak at right wreath and AMERICA. Otherwise fully equal to the Ryder coin, which brought \$57.50. Inferior specimens have brought \$35. This one is from the Brand collection. (Book, 60 x 45c).
- 23- 1104 1811. B-62:1-A. G-1. Close Date. Very Fine, plus, but minutely and extensively nicked. Chocolate brown. Rare date in uncommon condition: less frequently offered than the G-2. (Book, 20 x \$2).

- 70- 1105 1811. B-63:2-A. G-2. Wide Date. Heavy rim break over the first four stars. Also Very Fine, but much less nicked. Pleasing light brown and steel. Rare condition, and rare with the die break. Cost \$35 many years ago. (Book, 25 x \$2.50).

- 46.- 1106 1811. B-63. Duplicate. Die broken over the first two stars only. Strictly Good; well worn, and scratched up, but everything clear, and obverse strong. The finer of only two known with this break over two instead of four stars. The other one was sold at the MANA auction in October 1953, and was only Fair. Excessively Rare.

- 275.-
PM 1107 1811. Restrike. Obverse of G-1, badly rusted; reverse of 1802 G-1. Bright red Proof. One of only six struck; the only others we have located are owned by Mr. Brobston and Mr. Showers. Not a mint product, but struck from genuine dies while they were owned by J. J. Mickley of Philadelphia. Extremely rare.
- 5.- 1108 1825. B-64:1-A. G-1. Close Date; Curl over 25. Very Fine, light brown. (Book, 25 x 15c).
- 17.- 1109 1825. B-64. Duplicate. Freak coin, struck almost half off center. Very Fine or better. Unusual.
- 5.- 1110 1825. B-65:2-A. Wide Date; curl over 5. Very Fine, light brown; obverse edge bruise. Scarce coin. (Book, 20 x 25c).
- 6.- 1111 1826. B-66:1-A. G-1. Extremely Fine, steel and brown, but not well struck up on reverse. (Book, 40 x 15c).
- 10.- 1112 1826. B-67:2-B. G-2. About equal to the last, of similar color, and even less well struck up on reverse. Rare variety, seldom offered; not in Ryder Sale. (Book, 40 x 40c).
- 13.-
ALT 1113 1828. B-69:2-B. G-1. 13 Stars. Mint State, light olive and mint red with some darker spotting, as on many of the coins from the hoard. The equal of the Ryder coin, which brought \$17. (Book, 60 x 12½c).
- 7.- 1114 1828. B-69. Duplicate. AU-50. Traces of mint surface, and faint handling marks. Light tan, delicately mottled. (Book, 50 x 12½c).
- 1115 1828. B-70:3-C. G-3. Twelve Stars. About Uncirculated. Blunted, and with some handling marks on obverse, but with traces of mint surface on reverse. Records to \$16 for similar examples. Uncommon "type" coin. (Book, 55 x 20c).
- 11.- 1116 1829. B-71:1-A. G-1. First strike. Iridescent olive color. This is the Gilbert Plate coin. Ex Brand collection. (Book, 55 x 15c).
- 1117 1831. B-73:1-B. Large Berries; First Restrike. Reverse of 1836. Brilliant Proof; a good match for the Ryder coin, or better if anything because free from rim defects. Records to \$140 for similar specimens. Rarity 6.

- 135.- 1118 1831. B-73:1-A. G-1. Original; Rarity 7. Sharpness of full Very Fine, but nicked up; light brown. Only 2200 coined. First one offered in many years. The Standard Catalogue says only three are known in Uncirculated, and about 5 or 6 in lesser grades, and lists this at \$125 in Very Fine. This coin is worth full catalogue. We do not have Mr. Breen's basal value on this variety since it has not been published anywhere, but catalogue value indicates a basal value of about \$6.50. This figure is probably conservative, as the coin is just as rare as Nos. 15b and 16 (G-8 and 7) of 1795, and much rarer than the 1796 without pole. This one must be seen. (Book, 20 x \$6.50?).

- 180.- 1119 1831. B-73:1-B. State D. As last, but from the badly cracked reverse die; Rarity 7 as such. Choice bright red Proof with wire edge. Extremely Rare, records to \$125 many years ago. Now worth much more.
- JB
- 8.- 1120 1832. B-76:1-B. G-2. Extremely Fine. Lustrous light olive mingling with brick red. Uncommon condition. (Book, 45 x 12½c).
- 6.- 1121 1832. B-77:1-C. G-3. Uncirculated, mottled or streaked light and dark brown; reverse from a severely rusted die. Faint old scratches, visible through a glass. (Book, 40 x 10c).
- 7.- 1122 1832. B-77. Duplicate, also from the rusted die. Very Fine, darker brown and steel; reverse rough. (Book, 20 x 10c).
- 60.- 1123 1833. B-78:1-A. G-1. Iridescent pink and blue Proof. Planchet crack over head. Several recent records of \$40 to \$60 for similar pieces. Rarity 5.
- 60.- 1124 1834. B-79:1-A. G-1. Light red-orange (obverse) and orange olive (reverse). Proof, not as brilliant on reverse. Rarity 6 as a proof, according to the Ryder Catalogue. Better than the Ryder coin which brought \$47.50. This one is worth about \$60.
- 5.- 1125 1835. B-80:1-A. G-2. Reverse of 1834; wide S. T. Obverse is dull rubbed. Extremely Fine; reverse is AU-55, light greenish olive. Scarcer than the G-1 in comparable condition, as the bag full of 1835 coins contained mostly the latter variety. Records to \$10. (Book, 50 x 10c).
- 110.- 1126 1835. B-81:1-B. G-1. Close ST. "Blazing" red Proof, marred only by a few carbon spots and a pencil mark over head. High Rarity 6 as proof. Worth at least \$75, and has records to that figure.

H B. 1127 1836. B-82a:1-A. Large berries. Original. Bright red and olive Proof. Edge and finish like that on the 1835 Proof, and similar color. Does not have bulged dies or wire edge. Weight, almost 85 grains; standard is 84 grains, restrikes are lightweight. Worth a record price.

- 240.- 1128 1836. B-83:1-C. Second Restrike. Small Berries; Rev. of 1840, with die scratches over RICA. Choice red Proof shading to light olive; wire edge. Wt. 79 grains. After diligent inquiry we can find only four other specimens of this coin. One is in a museum in Omaha. Three others are owned by Mr. Brobston, Mr. Newman, and Martin Kortjohn. This one is a real prize.

- 1143 1847. B-105:1-A. G-1. Large Berries. Original. Dull bluish Proof. The Ryder coin was only Extremely Fine and brought \$71. This one ought to be worth at least full catalogue value.

- 1144 1847. B-107:1-C. Small Berries. Second Restrike; Reverse of 1840. Die scratches over RICA. Light olive Proof with faint bluish overtones. At least equal to the Ryder coin. Worth over catalogue.

- 1145 1848. B-108:1-A. G-1. Large Berries. Original. Bright choice Proof, red and pale olive obverse, pale blue-green to steel gray and mint red on reverse.

- 1146 1848. B-109:1-B. Small Berries. First Restrike. Reverse of '56. Double impressions on CENT and ribbon. Fully red Proof, with shading to light purple. Early die state, everything sharp, thus more desirable than the Ryder coin. (Ex Brand). Very Rare.

- 1150 1850. B-115:1-A. Reverse of '49. Red-Orange and russet Proof. Extremely rare. Any 1850 Proof is worth over present catalogue.

U. S. HALF CENTS, SMALL CENTS

- 70.- 1151 1851. B-117:1-A. G-1. Extremely Fine, light olive; few minor edge nicks.
- 150.- 1152 1852. B-119:1-B. Small Berries; Reverse of 1856. Double impressions on CENT and ribbon. First Restrike. Beautiful iridescent bluish-green Proof. Small chip out of planchet before striking, within wreath. Otherwise flawless. Ryder coin brought \$67.50, and this is a superior example.
- 5 FL 16.- 1153 1853. B-122:1-A. G-1. Just about Mint State-60. Mostly a rather dull brown with some traces of mint red on both sides. Unobtainable in "gem" condition. Ryder's, a little better in color, realized \$14.
- 8.- 1154 1854. B-123:1-A. G-1. Uncirculated, obverse mostly olive, reverse pale medium brown.

- 350.- 1155 1854. New. Same dies, but struck in Copper-Nickel. Listed as AW192 and called unique, but there was another one in the Farouk collection. This coin is an original, struck from the same dies used to make copper proofs in 1854, and weighs 84 grains. It is a toned Proof with a tiny edge nick at E of UNITED which shows the copper-nickel metal plainly underneath the tarnish. Probably only this and the Farouk piece are known. Excessively rare. *B. Wilson*
- 50.- 5 FL 1156 1855. B-125:1-A. Gem Proof, blazing mint red. It would be almost impossible to improve this one. Should be seen. Worth a great deal more than Ryder's.
- 70.- 1157 1856. B-125:1-A. First Reverse. Struck in Copper-Nickel. Listed as Gilbert 2, "R-6", and as AW216. Weight 70 Grains. 90% Copper, 10% Nickel. Pale golden-colored Proof, not fully brilliant. Very rare in this metal. Records \$100 for similar specimens.
- 140.- 1158 1856. B-126:1-B. Second Reverse. Double impressions on CENT and ribbon. Deep red Proof. Records to \$75.
- W 45.- 1159 1857. B-128:1-B. Reverse of 1856. Iridescent bluish and russet Proof; steel-gray area before face. Repolished dies. Weight 91½ Grains. Evidently a restrike, but if anything rarer than the original, and better looking than most of them. Records to \$75.

 UNITED STATES OF AMERICA. Silver, plain edge. Tarnished Un-
 circulated. Perforated. AW120. Worth about as much as the last.

 Toned Proof. Listed as AW124. Rare.
- 30.- 1216 (1850) Cent. Same dies as last. Silver restrike, without perforation. Bril-
 liant Proof, some toning. Reeded edge. Listed as A. W. 121, but Adams
 did not know it with reeded edge. Very rare with this edge.
- 30.- 1217 1853. Pattern Cent. Obverse of regular quarter eagle. Reverse ONE
 CENT in wreath. German Silver, reeded edge. Brilliant Proof. One of
 the most beautiful examples we have seen, as this usually comes quite
 dull. Type of A. W. 171, but not mentioned by Adams in this metal.
- 2250 1218 1853. Duplicate, as last in all respects but not quite as brilliant.
- 25.- 1219 1853. A third, just like the last two, but the usual rather dull Proof. Pos-
 sibly in a slightly different alloy.
- 25.- 1220 (1853). Uniface trial of reverse of last, plain edge, in copper-nickel.

- 50.- 1221 1858. Small flying eagle. Reverse of 1856 A. W. 209, oak wreath and ornamental shield. Beautiful red copper Proof. A. W. 258. Excessively rare; the first one offered in many years. Waldo Newcomer paid \$60 for his specimen, when copper-nickel cents of the same design sold for \$2 to \$5 apiece. This may be that identical coin. Rarer than any 1856 Flying Eagle cent. PLATE.
- 80.- 1222 1858. Same obverse. Reverse of 1856, tobacco wreath. Light olive copper Proof. A. W. 260. Just as rare as the last, and like it the first one offered in many years. Newcomer paid \$60 for his example of this variety, too. Excessively rare. PLATE.
- 60.- 1223 1858. Indian head; reverse laurel wreath. The type adopted in 1859. Like the last two, struck in copper; light and dark red Proof. A. W. 265. Excessively rare, first we have offered. If the regular copper-nickel piece is worth \$25, then this one is worth \$100 or more. PLATE.
- 60.- 1224 1858. Same dies as last, but in bronze, struck on a thick planchet. Choice light red and light olive Proof, with minor carbon spots. A. W. 267. This is the first one we have heard of; no sale records at any time. Newcomer never owned one. Possibly Unique. PLATE.
- 80.- 1225 (1858) Indian head, without date. Reverse similar to A. W. 209, oak wreath and broad ornamental shield, but with a center dot which is not found on other examples of this design. Copper-nickel, struck on a broad, thick planchet. Lightly toned Proof. Extremely rare. Newcomer paid \$50 for his example more than thirty years ago. This one is worth in three figures. The first we have handled. PLATE.
- 22.50 1226 1859. Regular Indian head; reverse oak wreath and ornamented shield. Copper-nickel, toned to an attractive pink. A. W. 313. Proof. Rare, has sold up to \$24.
- 25.- 1227 1859. Regular Indian head; reverse thick oak wreath without shield. A. W. 318. Choice lightly toned copper-nickel Proof. Rare type, seldom offered.
- 35.- 1228 1859. The regular Indian head cent type, but struck in copper. A. W. 315. Light olive Proof. Rare, records above \$40.
- 50.- 1229 1859. Type of 1860. Reverse, oak wreath and narrow shield. Brilliant Uncirculated, beautiful first strike, slight toning. This is as much a "transitional" coin as are the 1859-60 Dime and Half Dime which sell for \$200 to \$300 apiece. It belongs in the Standard Catalogue and Guidebook just as much as those do.
- 100.- 1230 1863. Same, but with a reeded edge. Choice copper-nickel Proof. Genuine, and the first one we have seen in Proof. Most of those offered are home-made jobs, the edge reeding applied to an ordinary Uncirculated 1863 cent. This one ought to be worth as much as an 1856. Extremely Rare.

35.- 1231 1863. Cent. Transitional. Struck in bronze like the adopted cents from 1864 on, but on a thick planchet like the copper-nickel cents of 1856-63. Listed as A. W. 424. Olive Proof, some red on obverse.

145.- 1232 1863. Duplicate, thick bronze planchet. Darker olive and red-brown Proof. Unusual.

25.- 1233 1863. Another transitional piece. Regular type, but struck in Bronze exactly like the cents of 1864 and later. Said to have been struck in anticipation of the 1864 Mint Act which was to authorize coinage of the cent in this weight. Listed as A. W. 428 and sometimes as 423. Worth about \$20 to \$25. Choice red Proof.

25.- 1234 1863. Duplicate, exactly like the last; slightly darker red and olive Proof. Two tiny edge nicks.

270.- 1235 1863 L. Same as last, but struck in Aluminum. Thin planchet. Gem Proof. To the best of our knowledge only three are known, and this is the only one that has come up at auction within memory. This coin is so rare that most collectors have never seen one. Adams knew of the aluminum cent of 1863 (A. W. 427) but he did not know when he wrote the book that this piece has the L on ribbon. Worth a record price. PLATE.

65.- 1236 1864 Experimental cent. A. W. 461? Struck in a bronze-like alloy with much more tin than the regular issue. Pale orange yellow Proof, struck on a thin planchet from rusted dies. Undoubtedly Extremely Rare.

75.- 1237 1864 Experimental cent. A. W. 460 or 462? Struck in a composition like French aluminum bronze or brass. Thin planchet. Straw-colored Proof. Undoubtedly very rare. Record for similar pieces \$80.

55.- 1238 1864 Experimental Cent. Duplicate. Exactly like the last, but toned to a slightly darker shade. Equally rare.

55.- 1239 1865 Cent. Regular type, struck in copper-nickel like the 1856-64 coins, but with a reeded edge. Brilliant Proof. Listed as A. W. 526. Extremely Rare.

55.- 1240 1865 Cent. Exactly as last, but with a plain edge. Thick planchet. Toned Proof. Very rare. Listed as A. W. 525.

70.- 1241 1865 Cent. As last, but struck in a nickel alloy like that used for the nickel 3-cent pieces; different from the copper-nickel of the old cents. Thin planchet. Choice Proof. *Unpublished*. Excessively rare.

50.- 1242 1865 Cent. Like the last, but on a small thin planchet. Really a freak coin not a pattern or trial piece, as this is actually struck on a 3-cent nickel planchet. Well centered for such an item, everything showing plainly. Uncirculated, not perfectly struck up, but with a gash on hair probably done at the Mint. Extremely Rare.

80.- 1243 1866 Cent. Same as regular issue, but struck on a thick copper-nickel planchet of the old 1856-64 series. A. W. 597. Lightly toned Proof. Very Rare. The last one offered was priced at \$80, and this one is worth as much.

U. S. PATTERN CENTS

- 22.50 1244 1868 Cent. Obverse like nickel 3c; reverse tobacco wreath as on Flying Eagle cent. Half dime size. Choice red copper Proof. A. W. 699. The last one offered was valued at \$17.50. Rare.
- 20.00 1245 1868 Cent. Similar obverse, lower date. Reverse 1 within laurel wreath; type of adopted 3c nickel. Choice nickel Proof. A. W. 700. Worth about \$12.50.
- 1246 1869 Cent. Same type as the 3c nickel. Choice nickel Proof, with apparently less copper than in the usual ones as the metal is more bluish in color. Struck from cracked obverse die. Unusual and probably quite rare.
- 110.00 1247 1874. Same as last, but struck in Aluminum. A. W. 1398. Brilliant Proof, traces of oxidation. Excessively rare. None offered in recent years.
- 70.00 1248 1875 Cent. Same, but struck in Aluminum. Gem Proof. A. W. 1463. Excessively rare, the first one offered in years.
- 25.00 1249 1881 Pattern Cent. Type of the Liberty Head nickel of 1883, but without reverse inscription. Nickel proof, just about perfect. A. W. 1654. Rare, worth about \$15.
- 20.00 1250 1881 Cent. Same, but struck in copper. Pale red Proof. A. W. 1655. Worth about as much as the last.
- 35.00 1251 1881 Cent. Same as last, but struck in aluminum on a thick planchet. Slightly streaked, otherwise perfect Proof. Much rarer than the nickel and copper impressions. The last one offered was valued at \$37.50.

- 15.00 1252 1884 Cent. Eastman Johnson's "holey" design. Nickel, thin planchet, small irregular perforation. Choice Proof, die cracked near branches. A. W. 1704. Very rare. The last one offered, differing slightly in size of perforation, realized close to its estimate of \$25.
- 55.00 1253 1884 Cent. Same as last, but thicker planchet and larger perforation. Nickel; somewhat spotty Proof. Perfect dies. A. W. 1705. Valued to \$30.
- 37.50 1254 1884 Cent. Same, but in aluminum. Large perforation. Choice Proof. A. W. 1706. Rarer than the nickel strikes.
- 40.00 1255 1884 Cent. Same, but smaller perforation. Slightly cloudy. Aluminum proof. A. W. 1706a. Undoubtedly very rare.
- 37.50 1256 1885 Silver Ring Cent. Choice toned Proof. A. W. 1723. Rarely offered; worth at least \$35.

Lots 1515 - 2027

UNITED STATES DIMES

- 1515 1796. 5 berries. Lumpy die break at 1st star. (K-3). Better than Extremely Fine, with mint lustre. Would be close to Uncirculated but for slight cabinet friction on eagle's breast and microscopic nicks and scratches. Reverse die shattered.

- 1516 1796. Similar; no die break. (K-9). Full sharpness of Uncirculated except on eagle's breast.

- 1517 1797. 13 stars. Fine, evenly and attractively worn.

- 1518 1797. 16 stars. Very Fine or better; obverse especially sharp. Even wear, faint handling marks; worth full catalogue of \$125 so choice.

- 1519 1798/97. Rev. 13 stars. Extremely Fine. Dig at T on obverse; very weakly struck in center on both sides. Adjustment marks on reverse. Beautiful lustrous surface, almost proof-like on reverse. Excessively rare, only about four specimens being known including this one. Not even in the Eliasberg Collection. One of the major rarities of the U. S. series, overshadowing even the 1894 S of which possibly seven are known. Now unpriced in the Standard Catalogue. The old price of \$100 in Very Fine is ridiculously low for this piece. Worth a fortune.

U. S. DIMES

- 1520 1798/97. Reverse 16 stars. Very Fine or better; adjustment marks in hair. Obverse rather weak; reverse beautifully struck up.

- 1521 1798. Medium 8. Uncirculated. Obverse die heavily cracked. Just about full sharpness of Mint State, but without the full original lustre.

- 1522 1800. Large Broad A's. Extremely Fine. This is the same variety that brought \$145 in the sale of the Gambert collection last June. Rare.

- 1523 1801. Five berries; same reverse as last. Fine, reverse stronger than obverse but with many adjustment marks. Rare date.

- 1524 1802. Needle Beak variety. Very Fine, but weakly struck on bust. Under-rated, like all bust type dimes in this condition.

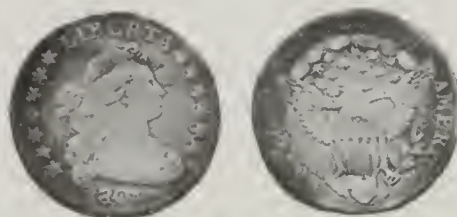

- 1525 1803. Wide date; stars close to LIBERTY. K-1. Sharpness of Very Fine, but probably was in a fire. Many very small pit marks, other similar defects at left on both sides. Rough surface.

- 1526 1803. Close date; stars away from LIBERTY. Reverse Legend widely spaced; die shattered with numerous fine cracks, the plainest one through ICA. A variety we do not recall seeing before. About Very Fine. Probably very rare.

- 1527 1804. Reverse 13 stars. Fine obverse (weak at bust), Very Good reverse. Seldom found better. Rare coin.

- 1528 1804. Reverse 14 stars. Very Good, but bad dent at base of shield. Very rare variety; none in the Eliasberg collection.

- 1529 1805. 5 Berries. Uncirculated, slight planchet defect on reverse.

- 1530 1807. Brilliant Uncirculated. Fully the equal of the Gambert coin. Later stage of dies yet; heavy traces of wreath before face, ERT gone, stars flat, all of reverse border gone and UNITED very weak. Just about of gem grade.

- 1531 1809. About Uncirculated, full mint lustre; weakly struck, flat stars. Rare coin, and seldom offered in such condition. PLATE.
- 1532 1811. Equal in surface and sharpness to last, but obverse scratched up. Still far above average.

- 1533 1814. Large date. Period after 10 C. Uncirculated, not quite fully struck up at claws; stars at right flat. Very scarce; not in the "World's Greatest Collection," and only this year included in the Standard Catalogue.
- 1534 1814. Small date. Very Fine plus. Scarce.
- 1535 1820. Small 0. STATESOFAMERICA crowded in together as one word. Choice Uncirculated. A variety we do not remember having seen before. Probably rare.
- 1536 1820. Large 0. Small c in 10 c. Extremely Fine. Was AU or better, with prooflike surface especially on reverse, but cleaned, and scratched across cheek. This one also should have been listed in the Standard Catalogue as a type, because 1820 dimes also and more commonly come with large C in 10 C. Rare.
- 1537 1821. Large date. Just about Extremely Fine, few slight handling marks.
- 1538 1821. Small date. Extremely Fine or better, also with minute handling marks. Scarce.

- 1539 1822. About Very Fine; reverse better than Very Fine. Rare and valuable. PLATE.
- 1540 1823. Large E's. Extremely Fine or better, weakly struck on forelock and claws. Mint lustre on both sides.

- 1541 1824. Very Fine or better; probably should be called Extremely Fine but very poorly struck on higher parts. Some mint lustre in fields. PLATE.
- 1542 1825. Extremely Fine, lustrous.
- 1543 1827. Close date. Extremely Fine, cleaned
- 1544 1828. Large date. About Uncirculated, lustrous but not well struck on eagle's head. Rare condition. Lists at \$50 Uncirculated and brings it when offered in that condition.
- 1545 1828. Small date. Extremely Fine, faint scratches. Very scarce in top condition.

- 1546 1829. Wide date. Small 10 C. Same condition as last.
- 1547 1829. Close date. Medium 10 C. Choice Uncirculated, obverse toned golden; full mint brilliance. Now catalogues at \$20.
- 1548 1830. Medium 10 C. Brilliant Uncirculated, slightest nicks in field.
- 1549 1830. Small 10 C. Uncirculated.
- 1550 1831. Medium 10 C. (Formerly catalogued as large 10 C.) Brilliant Uncirculated. Minute dent at right reverse edge, visible with a glass.
- 1551 1832. About Uncirculated, cleaned.
- 1552 1833. Extremely Fine.
- 1553 1834. Large 4. Brilliant Uncirculated.
- 1554 1834. Small 4. About Very Fine. Also 1837 Bust type. Very Fine, scratches on obverse. 2 pieces.
- 1555 1835. Large 0 in 10 C. Brilliant Uncirculated, slightest signs of "bag handling." This date also comes with small 0 in 10 C, and should have been listed as a type coin. The small 0 type is slightly rarer.
- 1556 1836. Small 0 in 10 C. Same condition as last. This date also comes with large 0 in 10 C, and both should have been listed as types.
- 1557 1837. Large date. Brilliant Uncirculated. Same dies as the Proof; bottom of 7 recut. Obverse die badly cracked. A real beauty.

- 1558 1837. Liberty Seated, No Stars, large date. Brilliant Proof. Of great rarity.
- 1559 1838. Large stars. No drapery. Uncirculated, few microscopic nicks.
- 1560 1838-O. No stars. Gem Uncirculated. Another real beauty.
- 1561 1839. Uncirculated, lustrous; faint scratches visible with a glass.
- 1562 1839-O. Small 0. About Extremely Fine.

- 1563 1840. No drapery. Brilliant proof. A real rarity in the early Proofs.
- 1564 1840-O. No drapery. Very small 0. Uncirculated, mint lustre. Die break on right obverse rim.
- 1565 1840. Drapery. Very Fine, slight signs of handling.
- 1566 1841 and 1841-O Drapery. Extremely Fine, mint lustre. The 1841-O has a small 0. Like the earlier O Mints it also comes with large 0.

- 1567 1842 and 42-O. Extremely Fine, lustrous. The O Mint with medium O and weakly struck on obverse.

- 1568 1843. Re-engraved date. About Uncirculated, lustrous. Signs of bag handling. First one we've ever seen. Should be listed as a type. Very Rare.

- 1569 1843-O. Small o. Very Fine. Scarce coin.

- 1570 1844. "Little Orphan Annie." First 4 re-engraved. Extremely Fine or better, signs of bag handling. First we have ever seen. Very Rare.

- 1571 1845. Brilliant Uncirculated.

- 1572 1845-O. Large O. Almost Extremely Fine, but with signs of handling.

- 1573 1846. Looks like an overdate—46 over 44? Very Fine, usual signs of handling. First we have ever seen, although this coin should bring as much as the 1844. Far less made than 1844. Very Rare.

- 1574 1847. Brilliant Proof. Gem coin. Extremely rare date in Proof. The one in the World's Greatest Collection brought \$25, in spite of having file marks, nine years ago. This one should be worth much more.

- 1575 1848. About Uncirculated, lustrous.

- 1576 1849. Uncirculated, full lustre. Not fully struck up on highest points.

- 1577 1849-O. Large O. Very Fine, signs of bag handling. Very Scarce.

- 1578 1850. Brilliant Uncirculated, not perfectly struck up on highest points. Underrated date.

- 1579 1850-O. Large O. Very Fine or better. Scarce coin. Lists at \$20 Uncirculated, but almost never comes any better than this one.

- 1580 1851. Second 1 re-cut. Uncirculated. Also underrated.

- 1581 1851-O. Large O. Fine, but pitted. Very scarce.

- 1582 1852. Brilliant Uncirculated. Underrated in this condition, like the half dime and quarter dollar.

- 1583 1852-O. About Extremely Fine. Lists at \$12.50 Uncirculated, but almost never seen better than Very Fine.

- 1584 1853. No arrows. Uncirculated. Rare coin, worth more than catalogue value in this condition.
- 1585 1853. Arrows. Also 1854. Both Uncirculated, first lightly nicked, second brilliant but weakly struck.
- 1586 1853-O. Uncirculated, faint signs of handling.
- 1587 1854-O. Uncirculated, obverse with golden tone.

- 1588 1855. Re-engraved date. (Should have been listed as type). Brilliant Proof. Very Rare.
- 1589 1856. Large date. Faint nick in field. Uncirculated.
- 1590 1856. Small date. Brilliant Uncirculated, weakly struck at ribbons.
- 1591 1856-O. Small date. Large O. Date re-engraved and slants far up to right. Should be listed as a type coin. First one we've seen like it. Extremely Fine. Rare.

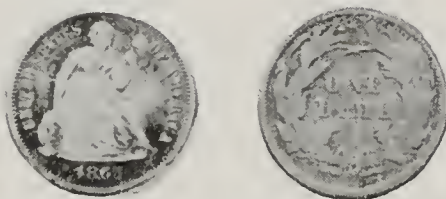

- 1592 1856-S. Large re-cut S. Very Fine. Rare coin in any condition, and this is a very nice example, without noticeable mishandling.
- 1593 1857. Uncirculated.
- 1594 1858-O. Fine to Very Fine, weakly struck on reverse.
- 1595 1857-O. Uncirculated.
- 1596 1858. Brilliant gem Proof.
- 1597 1858-S. Extremely Fine, signs of bag handling. Very Rare.
- 1598 1859. Brilliant Proof. Two or three microscopic nicks in field.

- 1599 1859-O. Prooflike surface. Bought as a proof, and has all the earmarks, with high wire edge. Rare in this condition. Full mirror surface.
- 1600 1859-S. About Fine, full LIBERTY on shield. Evenly worn.

- 1601 1859. Reverse type of 1860. No mention of UNITED STATES on the coin. Gem Proof, with records of \$430. This magnificent one should be worth more than that. This is one of the transitional pieces. Rarely ever seen.
- 1602 1860. Legend on obverse. Brilliant Proof.
- 1603 1860-S. Stars on obverse. Uncirculated, light brown toning at right obverse.

- 1604 1860-O. Strictly Fine, rough surface, but everything clear; full LIBERTY on shield. Faint scratch in right obverse field. About average for this always weak and extremely rare coin. Davis-Graves piece realized \$250 in extremely Fine.
- 1605 1861. Brilliant Proof.
- 1606 1861-S. Fine, but a little dark.
- 1607 1862. Impaired Proof, nicked up on both sides, but the proof surface is still intact.
- 1608 1862-S. Better than Fine. Almost as rare as the 1861-S.
- 1609 1863. Brilliant Proof, marred by light obverse scratch at shoulder. Only 460 Proofs struck.
- 1610 1863-S. Better than Fine, about like the 1862-S, and almost equally rare. These early S Mint coins are almost impossible to find in Uncirculated, because there were no collectors out west those days to save them. One day collectors will begin to realize this and then the Fine and Very Fine ones will make Barber proofs look cheap.
- 1611 1864. Brilliant Proof. Only 470 Proofs struck.
- 1612 1864-S. About Fine, weakly struck on head as usual.
- 1613 1865. Proof. Only 500 made in Proof.
- 1614 1865-S. Uncirculated, but with scratch on drapery. Very rare in this condition.
- 1615 1866. Brilliant Proof, a little granular on reverse. (?) Only 8725 struck, 725 of them Proofs.
- 1616 1866-S. Very Fine. Very scarce and unusually bold.
- 1617 1867. Brilliant Proof. Rare. As said in the Gambert catalogue, only 6625 made, 625 of them proofs. The lowest P Mint coinage of all, and the lowest dime coinage except for 1894-S. There were more than twice this number made of the 1873-CC no arrows.

- 1618 1867-S. Extremely Fine, signs of bag handling. Very rare condition for this coin.
- 1619 1868. Brilliant Proof.
- 1620 1868-S. Extremely Fine or better; mint lustre, and a few light nicks. Very scarce.
- 1621 1869. Brilliant Proof.
- 1622 1869-S. Brilliant Uncirculated. A little weakly struck on reverse, and the mintmark not sharp. Beautiful coin.
- 1623 1870. Brilliant Proof.

- 1624 1870-S. Very Fine, but weakly struck on parts of wreath, center of reverse, and at rock and foot. Very rare coin, and almost impossible to find better.
- 1625 1871. Brilliant Proof.

- 1626 1871-CC. About Very Fine but very weakly struck in the same places as the 1870-S was. Extremely rare.
- 1627 1871-S. Very Fine or better, but reverse lightly pitted and scratched. Rare coin.
- 1628 1872. Brilliant Proof.
- 1629 1872-S. Uncirculated, and very rarely offered in this condition. The Davis-Graves collection had none in any condition, though it did have the 1873-CC and other great rarities. A sleeper coin.

- 1630 1872-CC. Uncirculated, though a little weakly struck. Faint traces of bag handling. Extremely rare, and as fine as any known. The "World's Greatest Collection" only had a Very Fine example. Most others are only in Good to Very Good.
- 1631 1873. No arrows. Brilliant Proof.
- 1632 1873. With arrows. Brilliant Proof. Now catalogues at \$13.50, as a type coin. Worth more.

U. S. DIMES

- 1633 1873-S. Arrows. Brilliant Uncirculated, really a Gem. Worth far beyond catalogue. Rare in so choice condition.

- 1634 1873-CC. Arrows. Better than Fine. The Davis-Graves specimen realized \$225, and this is also worth it. Extremely rare.

- 1635 1874. Brilliant Proof.

- 1636 1874-CC. Uncirculated, obverse with prooflike surface; a gem coin. The only one we have ever heard of in this condition. A very high price was paid for this superb coin many years ago as a "Proof". Not a proof because reverse has mint lustre, but it most certainly is the finest known of the date, and worth far above catalogue value as such. If this were a large cent of comparable rarity and condition it would be a \$750 item.

U. S. TWENTY CENT PATTERNS AND REGULAR ISSUE; QUARTER DOLLARS

- 1781 1878. "Gem" blue Proof with wire edge. A \$60 coin.

U. S. QUARTER DOLLARS

- 1782 1796. B-2. Uncirculated, some Prooflike surface. Adjustment marks on reverse. Beautifully centered and struck.

- 1783 1804. B-1. Low date. Sharpness of Very Fine obverse, Extremely Fine reverse. Advanced die breaks as described in Browning. Really a choice coin and very scarce.

- 1784 1805. B-3. Five berries. Reverse is everything that could be asked for. Sharp striking, with Mint lustre; rare in this condition.

- 1785 1806/5. B-1. Extremely Fine, obverse weakly struck. Reverse has blue toning through lettering. Very scarce.

- 1786 1806. B-2. Uncirculated, weakly struck on head and in center of reverse. Brilliant prooflike surface. Originally it was sold as a proof. Far better than the Browning Plate coin. Rare variety, and in this condition extremely rare.

- 1787 1807. Small date and stars; 4 berries. B-1a. Should be listed in the standard catalogue as a type. Brilliant Uncirculated, some light toning around edges and on reverse. As well struck as this sub-variety ever comes. Magnificent coin, fully lustrous. The finest we have ever handled and probably the finest known. A Gem.

- 1788 1815. Uncirculated, but tiny scratch on obverse, exactly as on the Browning Plate coin. As good as this popular date ordinarily comes.

- 1789 1818/15. B-1. Uncirculated, dull golden and bluish tone, but very weakly struck on eagle's head and neck and center of obverse. Beautiful coin, and worth about as much as the 1815.

- 1790 1818. B-10. Extremely Fine, reverse toned. A very rare variety; listed as Rarity 6 in Mr. Breen's article in the February Scrapbook. This coin is equal to the Browning Plate coin in sharpness.

- 1791 1819. Large 9. B-2. Uncirculated, with most of the original lustre. Toned at edge and on reverse. Has proof surface.

- 1792 1819. Small 9. B-3. About Fine.

- 1793 1820. Large 0. B-2. Perfect Brilliant Proof. Choice Uncirculated. Mr. Breen's monograph says only one B-2 is known in proof, in the Mint collection. This rare variety should bring a record price. Superb.
- 1794 1820. Small 0. B-4. About Fine, microscopic edge nicks.
- 1795 1821. B-5. Choice Uncirculated, proof surface. Few faint scratches visible only with a glass.

- 1796 1822. Normal 25. B-1. This was sold as a brilliant proof. Has the full lustre and sharpness. Very rare in this condition.

- 1797 1822. 25 over 50. B-2. Brilliant Uncirculated. Absolutely top grade; minute dark streaks from planchet defects visible with a glass, otherwise perfect, and fully lustrous. Gem coin. Traces of rich toning through legend on reverse, enhancing its beauty. Extremely rare.

SECOND FINEST KNOWN 1823 QUARTER

- 1798 1823. B-1. Extremely Fine plus. Prooflike surface. Slight friction on the highest points on both sides and light scratch in right obverse field prevent a grade of About Uncirculated. The only better example of this rarity that we have heard about is the Jerome Kern-F. S. Guggenheimer proof that we sold for \$2750. This coin, clearly second finest of about a dozen known, should be worth nearly as much. Extremely Rare.

1799 1824. B-1. Perfect die, has a high wire edge with full lustre as a Brilliant Proof, this is the second one we have handled. The Davis Specimen realized \$550. This is worth as much. Excessively rare.

1800 1824. B-1. Very Fine, pinpoint dig right of date.

1801 1825/24 though Browning calls it 25/23. Large 5 in 25 C. Brilliant Uncirculated, planchet defect on reverse. Unlisted die breaks: obverse shattered by many light cracks, reverse with heavy crack at UNITED. Only the one seen, and not mentioned in Mr. Breen's list in the February Scrapbook. Undoubtedly extremely rare.

1802 1825/23. B-2. Small 5 in 25 C. About Uncirculated, almost full mint lustre, but barest traces of friction on the highest points.

1803 1827. B-2. Brilliant Proof. About 6 or 7 known. Well centered sharp stars and legend. High wire edge, slightly toned. Excessively Rare.

1804 1828. B-2. Reverse of 1824. Perfect brilliant Proof with high wire edge. A magnificent example of this rare variety in Proof. Only proof known of this date is the B-4. Excessively rare.

1805 1828. 25 over 50. B-3. About Very Fine; evenly worn obverse. None in the Davis Sale. Very rare.

- 1806 1831. Small date and letters. B-2. Beautiful brilliant Proof, reverse with some blue toning. Cracked reverse die. Very rare, like all these early Proofs.
- 1807 1831. Large date and letters. B-5. Very Fine to Extremely Fine. Scaree "type" coin.
- 1808 1832. Long arrowheads. B-1. Extremely Fine, with mint lustre.
- 1809 1833. Period after 25 C. B-1. About Very Fine.

- 1810 1834. No period after 25 C. B-1. Proof. Like the 1822. Probably it was intended for a presentation set when made. The decision is much more important here, since the 1834 B-1 in proof is supposed to be R-8 according to the Breen monograph. Excessively Rare.
- 1811 1835. B-1. Choice Uncirculated golden and bluish toning. Highly attractive. With period after 25 C.
- 1812 1836. B-2. Shattered dies as described in Browning. About Very Fine.

- 1813 1837. "B-5". New Variety. The dies described in Breen's article in the Feb. Scrapbook. This is the fourth one known and the second proof Perfect and fully brilliant. Excessively rare and will bring a record price.
- 1814 1838. Draped bust. B-1. About Very Fine.

- 1815 1838. Liberty Seated. Brilliant gem Proof. Unlisted in the Breen monograph on Proofs. Probably unique in this condition.

- 1816 1839. Uncirculated, full mint brilliance though weakly struck. Reverse die cracked across. Beautifully toned.
- 1817 1840. With drapery. Brilliant proof. Still very attractive and very rare.
- 1818 1840-O. No drapery. Strictly Very Fine, almost Extremely Fine. Medium O placed too far to left, over A.
- 1819 1840-“O”. Drapery. Very Fine. Small O over R.
- 1820 1841. Gem Uncirculated, beautiful first strike. Very seldom seen so choisee. Catalogues at \$27.50, but worth more.
- 1821 1841-“O”. Extremely Fine, light nicks. Small O over right half of R.
- 1822 1842-“O”. Small date, as in 1841. About Extremely Fine, but dent in center of reverse. Rare, like the half-dollar of similar description.

The Excessively Rare 1838-O

- 2104 1838-“O”. One of rarest of the half dollar series, only a few pieces are said to be known. This coin is ranked second to the 1804 in Rarity (although it exceeds it), and rightly deserves that distinction. This is the Third specimen we have sold. The Clapp, Guggenheimer and this one. The last auction record \$3850 was paid for same. This coin is Uncirculated with lustre. This coin should top all records. Rare.

- 2105 1838. Liberty seated; reverse, flying eagle, without stars in field. AW77; silver, reeded edge. From the obverse die referred to in the Ryder Sale as original—shield point over 1. Reverse die with only trifling cracks, and lacking the heavy breaks from eagle to borders seen on all other specimens of this variety. This coin is therefore an original, and possibly *unique* as such. Choice proof, toned on obverse; very close to perfection. Worth a record price. Design exactly the same as the Gobrecht dollar of 1838, and should therefore be of interest to collectors of regular issues as well as of patterns.

Green Collection. This coin is a little better than the Eliasberg Specimen. Fine, and much Rarer than the 1804 Dollar.

U. S. PATTERN HALF DOLLARS

- 2413 1838. Pattern. Kneass's popular Sunburst Head type. Reverse Standing eagle holding four arrows. Original. Choice brilliant silver Proof. A. W. 70. Inferior examples regularly bring \$25 and up; this one ought to be worth more.
 2414 1838. Same obverse; reverse, Gobrecht's flying eagle, as on the dollar of this year. A. W. 72. Silver restrike; cracked reverse die as almost always. Brilliant Proof with wire edge, lightly toned. The last one offered was estimated at \$40 and brought \$45.

- 2415 1838. Liberty Seated, as adopted in 1839. Reverse Eagle with six arrows. Choice brilliant silver Proof, not fully struck up in center. A. W. 81. Extremely rare; has brought over \$200. PLATE.

- 2416 1839. Pattern. Gobrecht's Liberty head to right. Reverse Regular type, large letters, as used in 1842 and after. Silver Proof, lightly toned. A. W. 93. Extremely rare, and seldom offered; has brought over \$200, and is worth more. PLATE.
 2417 1859. Extremely rare mule. Obverse Paquet's Liberty Seated obverse. Reverse Longacre's Liberty Head obverse. Date 1859 on both sides. Silver, toned Proof. A. W. 290. This is the first one offered in many years. According to Adams, only about five were made. Probably worth \$75; no recent records.

U. S. PATTERN HALF DOLLARS

- 2418 1859. Another rare mule. Obverse Liberty head; reverse Paquet's eagle. UNITED STATES OF AMERICA on both sides. Red copper Proof. Listed as A. W. 300. Much rarer than he says, as this is offered far less often than the usual patterns and trial pieces of this year.
- 2419 1859. Similar to last. Same obverse; reverse regular die of the year, Gobrecht's standing eagle. UNITED STATES OF AMERICA on both sides. Extremely rare. Mostly red copper Proof. Listed as A. W. 302. This differs, however, in having at center of reverse an impression from a bust of Washington like that on the nickels of 1866. We do not know how this was superimposed on the regular design. Should be seen by every collector of Washington items. Possibly Unique. PLATE.
- 2420 1862. Half dollar. Regular type, but GOD OUR TRUST on scroll. Silver proof. A. W. 357. Brings \$25 or thereabouts, but worth more.
- 2421 1862. Same, but motto in field. Silver proof, brilliant but tarnished at edges. A. W. 359. Equal in value to the last.
- 2422 1863. Motto GOD OUR TRUST on scroll. Silver Proof, tarnished blue at edges. A. W. 374. Worth about \$25 to \$30.
- 2423 1863. Motto in field. Silver, toned Proof. A. W. 376. Worth as much as the last.
- 2424 1863. Same as regular issue, but with motto IN GOD WE TRUST on scroll as adopted in 1866. Silver. Very rare with the motto. Really a transitional coin. A. W. 371. Worth as much as the dollar of same type which brings close to \$200.
- 2425 1863. Same. Copper. A. W. 372. Valued up to \$35. Perfect bright red Proof.
- 2426 1863. Same. Aluminum. A. W. 373. Much rarer than even the silver coin. Proof, struck on a rather streaky planchet.
- 2427 1864. Same. IN GOD WE TRUST on scroll, as adopted in 1866. Faintly spotted red copper Proof. Rare. A. W. 437.
- 2428 1865. IN GOD WE TRUST on scroll, as adopted in 1866. Transitional piece. Lightly toned silver Proof. A. W. 494. Extremely rare; has been valued above \$100 in years past. PLATE.
- 2429 1865. Same. Copper proof. Nearly as rare. A. W. 495.
- 2430 1865. Same. Aluminum proof. Much the rarest of the three. A. W. 496. No recent records.
- 2431 1867. Regular Dies. Struck in copper. Red and olive Proof. A. W. 611. Rarely offered; about a half dozen struck. Probably should bring about \$25 to \$30.
- 2432 1869. Regular Dies but struck in Nickel. Choice Proof. A. W. 731. Extremely rare in this metal, only three supposedly known. No record of sale. Worth whatever it will bring.
- 2433 1869. Set of three STANDARD SILVER designs. Lightly toned brilliant silver Proofs, with plain edges. A. W. 732, 738, 744. Originally sold by the Mint in sets of nine pieces—the Halves, Quarters and Dimes of the same three designs.

- 2434 1869. Same three designs as last; silver Proofs, with reeded edges. Only 69 of each made. A. W. 733, 739, 745.
- 2435 1869. Same set as last, but in copper with plain edges. A. W. 734, 740, 746.
- 2436 1869. STANDARD SILVER. First design; two stars on cap. Aluminum. Plain edge. A. W. 736. Cloudy Proof. Rare.
- 2437 1869. As last, but reeded edge. Aluminum. Brilliant Proof. A. W. 737.
- 2438 1869. Similar; bandeau, one star. Copper, reeded edge. A. W. 741. Toned red and brown Proof.
- 2439 1869. Similar. Pointed diadem. Aluminum, plain edge. Nearly fully brilliant Proof. A. W. 748.

- 2443 1870. Pattern. Barber obverse; reverse STANDARD 50 CENTS. Silver, reeded edge. A. W. 884. Brilliant Proof, slightly tarnished at edges. Very rare, much more so than any of the 1869 coins.
- 2444 1870. Same. Copper, plain edge. Beautiful red Proof. A. W. 885. Very rare.
- 2445 1870. As last, but copper, reeded edge. Choice red and olive Proof. A. W. 886. Equally rare.
- 2446 1870. Same obverse; reverse regular type. Silver; plain edge. A. W. 889. Brilliant Proof, slightly toned at edges. Very rare.
- 2447 1870. Like the last in all respects, but with a reeded edge. A. W. 890. Equally brilliant, toned the same way, and equally rare.
- 2448 1870. Same. Copper, plain edge. A. W. 891. Red Proof. Very rare.
- 2449 1870. As last, but reeded edge. A. W. 892. Red, russet and brown Proof. Equally rare.

Brilliant Proofs, lightly toned at edges. A. W. 895, 901 and 907. Rare, far more than their 1869 counterparts.
- 2452 1870. Identical set to last, but with reeded edges. Much rarer, like the last, than the 1869 issue. A. W. 896, 902 and 908. Brilliant Proofs, toned the same way.

U. S. PATTERN HALF DOLLARS

- 2474 1872. The famous, popular and extremely rare Amazonian pattern, by Barber. Russet and olive copper Proof. A. W. 1259. Only three struck; no recent records of sale, and worth whatever it will bring. PLATE.
- 2475 1873. Regular Dies, struck in copper. No Arrows. Red and purple Proof, slightly spotted. A. W. 1344. Very rare and seldom offered.

The following lots are among the rarest in the entire collection. The 1877 pattern half-dollars have long been known to connoisseurs of this series as the most elusive prizes of the denomination. We are privileged to offer six different designs, three by Morgan, three by Barber. All are in copper. Each one could justly be called excessively rare. One is unlisted in A. W. and may be unique.

- 2476 1877. Morgan design. Dollar head in circle; reverse defiant eagle on tablet. A. W. 1521. Copper; choice red and olive Proof. Extremely rare. One sold for \$60 ten years ago; we have no other recent sale records. PLATE.
- 2477 1877. Morgan design. Same obverse; reverse eagle with fanlike wings, large feathers. A. W. 1525. Like the last, red and olive copper Proof; of equal rarity, and sold about ten years ago for \$60. PLATE.
- 2478 1877. Morgan design. Same obverse as last two; reverse motto on garter around shield, eagle within shield. Toned red copper Proof. A. W. 1528. Of equal rarity to the last; perhaps even rarer. No recent records. PLATE.

The set of three pieces just listed may have been that in the Woodside sale of 1892, No. 323.

- 2479 1877. Barber design. Head with wheat spikes, cotton bolls and leaves above diadem. Reverse Small heraldic eagle. Nicely toned red and olive copper Proof. A. W. 1533. Extremely rare; no recent records. PLATE.

- 2480 1877. Barber design. Head with Liberty cap, motto above. Reverse Eagle with shield on tablet. Copper; red and olive Proof. Obverse of A. W. 1537; reverse of A. W. 1534. This is No. 73 in the Standard Catalogue listing of the 1877 Half Dollar patterns. Excessively rare, possibly unique; we do not know of another specimen. PLATE.
- 2481 1877. Barber design. Large head with ribbons and wheat spikes, cotton bolls, etc., above them; similar to that on the 1878 Goloid dollar. Reverse Eagle on shield encircled by two mottoes in Old English letters. Toned copper Proof. A. W. 1540. The only other one offered in recent years was in the Col. Curtis collection, valued at \$41, but any 1877 pattern half dollar is worth much more than that. PLATE.
- 2482 1879. Identical to last, but in copper. Choice red Proof. A. W. 1615. Very rare; brings close to \$30 when offered, which is not often.
- 2483 1879. Morgan design; mottoes above head and below eagle. Brilliant silver Proof. A. W. 1616. Very rare; valued up to \$45.
- 2484 1879. Identical to last, but struck in copper; gem red Proof. A. W. 1617. Very rare; valued at \$25 to \$30, but worth more.
- 2485 1879. Similar; motto at sides of head, reverse same as last. Brilliant silver Proof. A. W. 1618. Very rare; has been valued to \$80.
- 2486 1879. Same, but struck in copper; brilliant red gem Proof. A. W. 1619. As rare as last; no recent records.
- 2487 1882. The famous, popular and extremely rare Morgan Schoolgirl design. Silver; brilliant proof. A. W. 1660. Valued above \$75. Very rarely offered. PLATE.
- 2488 1882. Identical to last; struck in copper. Choice orange-olive Proof. Very rare. Records of \$45 to \$50. A. W. 1661.

SILVER DOLLARS

- 2489 1794. Strictly Fine to Very Fine for the coin. The usual weakness at left stars and tops of UNITED STATES, but everything is fully legible. Minute attempted puncture near third star, now relatively unnoticeable from smoothing over. Few pinpoint nicks; adjustment marks around reverse border. Well above average for this rate date.

- 2490 1795. Two leaves. B-1. Similar to the 1794 type, but no dollar has exactly the 1794 head. Very Fine, some lustre around date, stars, legend and devices.
- 2491 1795. B-2. Type as last. Uncirculated, a remarkable beauty with prooflike surface. Usual reverse adjustment marks. As lovely a dollar as we have ever offered.
- 2492 1795. B-5. Three leaves. Very Fine strictly. Even wear, much lustre, and no important defects. Planchet slightly streaked as made. Excellent type coin.

- 2493 1795. B-15. Draped bust. Choice Uncirculated, prooflike surface. In every way a match for the magnificent B-2 above offered. A real display coin.
- 2494 1796. Small date and letters. B-2. Very Fine, minute signs of mishandling, but an excellent example of a type coin, despite having been cleaned with an eraser.
- 2495 1796. B-4. Small date, large letters. Obverse nearly Fine. Reverse Very Good. Evenly worn, and without mishandling of any kind.
- 2496 1796. B-5. Large date, small letters. Extremely Fine, lustrous; small edge dent at top obverse, minor and inconspicuous nicks in fields. Well above average.
- 2497 1797. Stars 9+7. Large Letters. B-1. Very Fine. Obverse a little rough, probably from the way the planchet was made. Adjustment marks on reverse. Two tiny field nicks near head. No other defects worth mentioning. Bolender's plate coin is hardly any sharper.
- 2498 1797. B-3. Stars 10+6. Very Fine or better; good match for last, but cleaned long ago, probably with an eraser. Superior specimen or a rare date.

- 2499 1798. B-1a. Thirteen stars, small eagle. About Uncirculated. Faintest traces of friction, especially on eagle's breast; considerable lustre. Exceptional and very rare condition for this rare and popular type. Bolender's plate coin was about the equal of this. The WGS example was only Very Fine; Lathrop's, About Extremely Fine. The Davis-Graves piece, graded as About Extremely Fine, brought \$90. This one will bring a price up into the three figure mark.

- 2500 1798. B-2. Fifteen stars, small eagle. Uncirculated, full mint lustre, but weakly struck on center obverse and reverse. Faintly streaked planchet. No flaws worthy of note. The finest we have ever handled. Just about in the "gem" class. Worth a record price.
- 2501 1798. B-27. Large eagle; no knob to 9. Uncirculated, and a beauty. Excellent match for the B-2. Common coin, but in premium condition. Weakly struck on reverse borders; no flaws worthy of mention except for a very small one near ribbon.
- 2502 1799/8. Fifteen stars on reverse. B-3. Uncirculated, full mint lustre, and in every way equal to the Davis-Graves coin which brought \$140. Virtually perfect.

- 2503 1799. B-5a. Six stars facing. Uncirculated, nearly equal to last, but a trace of friction on eagle's breast, and two tiny nicks on drapery. Adjustment marks through LIBERTY. Exceptional condition; no recent records of this common variety in Uncirculated.
- 2504 1798. B-23. Five stars facing. Very Fine, even wear, and no blemishes worth mentioning. The Davis-Graves coin, in similar condition, brought \$42.50.
- 2505 1800. B-18. Very Fine or better, with much original lustre on reverse, but with an edge dent over UN. Die cracks differ from those Bolender describes as "B-18a". Probably very rare so.
- 2506 1801. B-4. About Uncirculated; almost full mint surface, but minor friction on head, and nick above shield. About the equal of the Davis-Graves coin which brought \$50. Very rare.
- 2507 1802/1. B-2. Very Fine or better; prooflike mint surface as on the last. Usual minute handling marks. Well above average.
- 2508 1802. B-6. About Uncirculated. Traces of cabinet friction on eagle's breast and elsewhere; minute faint handling marks, but just about full mint bloom. Common variety, but not so common in this condition.
- 2509 1803. Small 3. B-5. Obverse about Fine, reverse Very Good; evenly worn. Very rare variety, seldom offered in any condition.
- 2510 1803. Large 3. B-6a. Extremely Fine, lustrous. Choice, despite some flatness on head. No defects of consequence. Rare die crack.

- 2511 1836. Liberty seated; GOBRECHT on base. Most of the original proof surface remaining. Deeply toned and highly attractive. The only signs of wear are on the knees, head and breast, and could be as easily designated cabinet friction. Properly cleaned, this beautiful example could pass as a Brilliant Proof.

- 2512 1836. Liberty seated; GOBRECHT below base. Beautifully toned Proof, free of handling marks or other blemishes. Extremely rare, only 18 struck. First of the Gobrechts, and the best as a design. Worth a record price so choice; this could hardly be excelled.

- 2513 1838. No stars on reverse; reeded edge. Almost flawless, magnificent brilliant proof; some rainbow toning on obverse. No exaggeration of the beauty of this coin is possible; the collector will simply have to see it for himself. Extremely rare.

- 2514 1839. Same type. Perfect match for last; gem proof with steel-blue toning on obverse. Last of the real Gobrechts, and of a series often and justly called the most beautiful series of coins the Mint has yet produced. Supposedly 300 coined, but far fewer are known. Records to \$375; this beauty may well bring more.

LIBERTY SEATED DOLLARS

- 2515 1840. Regular type. Uncirculated, prooflike surface; faintest of hairline marks in fields. Similar pieces have often sold as "brilliant proofs."
- 2516 1841. Same condition as last, but the prooflike surface is even more beautiful and almost enough to be convincing. Faint field scratches. Planchet defects like streaks at lower left obverse. Premium coin.
- 2517 1842. About Extremely Fine, but showered with tiny nicks.
- 2518 1843. Re-cut date (should have been listed in the Standard Catalogue). About Uncirculated, some mint lustre and some of the usual signs of mishandling. A type coin.

- 2519 1844. Brilliant Proof, a better specimen than the Davis-Graves. Very Rare.
- 2520 1845. About Extremely Fine, but minor field nicks and hairlines.
- 2521 1846. Extremely Fine, some mint lustre, but many trifling handling marks. Minor vertical scratch in drapery.
- 2522 1846-O. Uncirculated, with much mint lustre, but weakly struck at head; stars at right flat. Few minute nicks. Well above average, as many "uncirculated" examples offered are mishandled or show friction.

- 2523 1847. Proof. Except for one cloudy spot near elbow and another at UNITED, all details are of the full sharpness expected on proofs. Sharp edge. Without blemishes except for a few sharp pinpoint nicks. Coin 99 out of 100 dealers would sell as "Gem Proof." It will probably bring that kind of price even when honestly described as here.
- 2524 1848. Extremely Fine. Traces of prooflike surface, but covered with minute nicks and digs, visible under a glass as such, but appearing as slight roughening to the naked eye.
- 2525 1849. About Uncirculated, with considerable mint lustre, but weakly struck. Reverse shows minor handling marks.

- 2526 1850. Original; same dies as Gambert's specimen. Full sharpness of Uncirculated, with prooflike surface, but with minor signs of mishandling including a small obverse edge cut. Very rare; but a great sleeper, as most of the coins of this date were melted.
- 2527 1850-O. Very Fine, usual handling marks.

- 2528 1851. Original; high date. Brilliant Proof; reverse not in full brilliancy and with a few minor signs of mishandling, including a small edge bruise at right. Full sharpness; wire edge. Better than the Lathrop coin which brought \$455, as that one was not fully brilliant on obverse either. Of the most excessive rarity, only two others being reported. The catalogue value of \$740 gives no indication of what this piece is actually worth. If an 1838-O half is worth \$4000 in proof, with more being known, then this piece should be worth correspondingly more.

- 2529 1852. Brilliant gem Proof. Also an original. Mr. Breen's monograph says that restrikes of this date have the reverse of 1858. We have compared this piece with the 1858 and the reverses are entirely different, the file marks within shield being the most prominent points of difference. So this must be an original, and it is the first one offered as such since the monograph came out. Excessively rare, rarer than the 1851, and worth a higher price. Unlisted in Standard Catalog.
- 2530 1853. Very Fine or better, with some lustre, but with the usual signs of bag handling. Bruise at base of shield. Scarce.
- 2531 1854. About Uncirculated, lustrous. Weakly struck at date.
- 2532 1855. About Very Fine, evenly worn. Pinpoint field nicks on reverse.
- 2533 1856. Uncirculated, fully lustrous, but with the usual signs of bag handling. Beautiful pale gold toning on reverse.
- 2534 1857. Brilliant Proof. Foot and a few stars not of full sharpness, and edge not sharp, but otherwise fully deserving of the name.

- 2535 1858. Brilliant Proof, has some faint hairlines, hardly noticeable, a Choice gem in demand.
- 2536 1859. Proof. Obverse more brilliant than reverse. Quite attractive.
- 2537 1859-O. Uncirculated, lustrous, with usual signs of bag handling.
- 2538 1859-S. Same condition as last. Very Scarce.
- 2539 1860. Proof, but not in full brilliancy.
- 2540 1860-O. Slightly better than last, but not quite full Mint State. Some faint pinpoint nicks.
- 2541 1861. Brilliant Proof.
- 2542 1862. Brilliant "gem" proof, with lovely golden toning on both sides. Could hardly be excelled.
- 2543 1863. Brilliant Proof.
- 2544 1864. Brilliant "gem" proof.
- 2545 1865. Brilliant proof.
- 2546 1866. Brilliant Proof. First year of regular issue with motto, and thus a type coin.
- 2547 1867. Similar to last, Brilliant Proof. A bit more attractive, and free from signs of handling.

- 2548 1868. Reengraved date, not listed in Standard Catalog. First we have handled. Brilliant Proof. Extremely Rare.
- 2549 1869. Brilliant proof.
- 2550 1870. Proof, nearly full mint lustre.

THE FINEST KNOWN SPECIMEN OF THE EXCESSIVELY RARE
1870-S DOLLAR

- 2551 1870-S. Uncirculated, Mint State, with prooflike surface, but for faintest traces of friction on the highest points, visible only with a glass. Minute scratches are at nose and O of ONE. This, unquestionably, is the finest specimen of about a half dozen that are known of this date. Originally \$2150 was paid for it to B. G. Johnson many years ago; it had earlier been in the Col. E. H. R. Green estate 1942. There are only two others that can be called even Extremely Fine. One of them is in the James Stack collection, and cost him \$2250 around 1944. The other is the Granberg-Woodin-Newcomer-Neil specimen, now in the Eliasberg collection. Other specimens of this date are in far inferior condition, such as the Hesslein-WGS-Skinner coin which was mutilated by having initials removed from obverse fields. The frequent records of this date are invariably from the same dollar having been sold and resold, not from different specimens. To our knowledge only five specimens can be traced with certainty, one other having been reported. That puts this coin in a class with the original 1804. Disregarding the controversy over the latter, we can still say that the coin now offered is the outstanding dollar in this collection, and is by far the finest known of the rarest collectible United States silver dollar. We consider it fully in a class with the 1853-O half without arrows or the 1858 Eagle in rarity, and we confidently anticipate that collectors will agree with us in our estimate that this piece is worth a price comparable to those two. In a black leather and velvet display case.
- 2552 1870-CC. Extremely Fine, with the usual handling marks. Very Rare.
- 2553 1871. Fully brilliant Proof.

- 2554 1871-CC. About Extremely Fine in sharpness. This is still one of the finest known of this extreme rarity. The Standard Catalog lists it a \$250 Uncirculated, but we have never seen one in that condition.

2555 1872. Brilliant Proof.

2556 1872-S. Very Fine. Rare coin, and one seldom offered in acceptable condition.

FINEST KNOWN 1872-CC DOLLAR

2557 1872-CC. Uncirculated, prooflike obverse, lustrous reverse. Absolutely unsurpassed, and so far as we know unequalled. CC mint coins, 1870-73, are almost impossible to find in this condition, and the present coin is distinctive in this as well as in being a great rarity. Probably worth in excess of double catalogue value.

2558 1873. Brilliant "gem" proof. Last year of the seated type and therefore regularly brings a premium.

2559 1873-CC. Extremely Fine, showing the usual faint handling marks. Even wear, and very little of that. Extremely rare coin in rare condition.

2560 1878. Morgan type. Eight tail feathers. Fully brilliant gem proof.

2561 1878. Seven feathers. 1878-S. Uncirculated. 2 pieces.

- 2562 1878-CC. Full Prooflike surface. Uncirculated.
- 2563 1879. Brilliant "gem" proof. As near to perfection as can be had.
- 2564 1879-O. Uncirculated, faint friction just above ear; prooflike surface but with the usual faint handling marks.
- 2565 1879-CC. 1879-S. Extremely Fine. 2 pieces.
- 2566 1880. Brilliant "gem" Proof. Same comment as on the 1879.
- 2567 1880-CC. Very Fine, reverse with considerable mint lustre; obverse with deep tarnish at upper border. Parallel arrow feathers as in 1878 but unlike 1879 and later issues. Probably rare. This date has recently acquired popularity on account of being published as the rarest mint-marked Morgan in Uncirculated, despite the catalogue valuations. Possibly this popularity will extend down to the Very Fine examples, too.
- 2568 1880-O. 1880-S. About Uncirculated. 2 pieces.
- 2569 1881. Brilliant "gem" Proof.
- 2570 1881-CC. Very Fine. Scarce.
- 2571 1881-O. 1881-S. Extremely Fine. 2 pieces.
- 2572 1882. Brilliant proof.
- 2573 1882-CC. 1882-O & S. Very Fine to Uncirculated. 3 pieces.
- 2574 1883. Brilliant "gem" proof.
- 2575 1883-O, S & CC. Extremely Fine and Uncirculated. 3 pieces.
- 2576 1884. Brilliant "gem" proof, as last, but without tarnish.
- 2577 1884-CC. Brilliant Uncirculated.
- 2578 1884-O. Brilliant Uncirculated.
- 2579 1884-S. Brilliant Uncirculated, with prooflike surface.
- 2580 1885. Brilliant proof.
- 2581 1885-S. Brilliant Uncirculated.
- 2582 1885-CC & O. Very Fine. 2 pieces.
- 2583 1886. Brilliant Proof.
- 2584 1860-O & S. 1887-O & S. 1888-O. Very Fine. 5 pieces.
- 2585 1887. Brilliant Proof, planchet somewhat irregular in surface at left obverse before striking.
- 2586 1888. Re-engraved date (should have been listed as a type in the Standard Catalogue). First to come to our attention. Brilliant "gem" proof. Probably rare.
- 2587 1888-S. 1889-O. Uncirculated. 2 pieces.
- 2588 1889. Brilliant "gem" proof.
- 2589 1889-CC. Uncirculated, prooflike surface; traces of friction on hair, and a nick on cheek. Two pinpoint planchet defects on eagle.
- 2590 1889-S. 1890-CC and S. Very Fine to Uncirculated. 3 pieces.

- 2591 1890. Brilliant Proof.
- 2592 1890-O. This is one of the controversial branch mint "proofs". Full sharpness; weak attempt at a wire edge; surface which is not quite as brilliant as that on the best P Mint proofs but which, if found on a Philadelphia coin, would suffice to identify it as a proof. Records for similar coins well over \$50.
- 2593 1891. Brilliant "gem" Proof.
- 2594 1891-O. Another branch mint "proof". Exact match for the 1890-O, except that the lower obverse border is not quite as well struck up. In the present condition it should be worth many times catalogue.
- 2595 1891-CC & S. 1892-CC. Uncirculated. 3 pieces.
- 2596 1892. Brilliant "gem" Proof.
- 2597 1892-S. Brilliant Uncirculated, lustrous first strike. Almost free of the usual handling marks. Worth full catalogue of \$35 so choice.
- 2598 1892-O. 1894-O & S. Extremely Fine to Uncirculated. 3 pieces.
- 2599 1893. Brilliant though faintly hairmarked Proof. Not well struck up on the lock just above ear. High wire edge.
- 2600 1893-O. Another branch mint "proof", exactly matching the 1890-O. Like the 1893 Philadelphia proof. Probably very rare, and worth more than the 1890-O and 1891-O, as this is a more valuable date in any condition.
- 2601 1893-S. Brilliant Uncirculated, fully lustrous and a first strike. Faintest traces of bag handling, but it would be just about impossible to find a Morgan dollar without them unless in proof condition. This one could hardly be excelled.
- 2602 1893-CC. Brilliant Uncirculated, and a perfect match for the last. Also as good as they come.
- 2603 1894. Brilliant Proof.

- 2604 1895. Brilliant "gem" Proof. Catalogue at \$225, but specimens this choice regularly bring nearer to \$250.
- 2605 1895-S. Still another branch mint "proof", this one the best of the four so far offered from this collection, and the most valuable as a date. Very close to perfection.
- 2606 1895-O. Extremely Fine. Scarce.

- 2607 1896. Brilliant "gem" Proof.
- 2608 1896-S. Uncirculated.
- 2609 1896-O. Brilliant Uncirculated.
- 2610 1897. Brilliant Proof, in the "gem" class.
- 2611 1897-O & S. Extremely Fine. 2 pieces.
- 2612 1898. Brilliant Proof, almost in the "gem" class.
- 2613 1898-O. Brilliant Uncirculated, but very small edge nick at 7th Star.
- 2614 1898-S. 1899-O & S. About Uncirculated. 3 pieces.
- 2615 1897. Brilliant Proof.
- 2616 1900. Brilliant Proof.
- 2617 1900-O & S. Extremely Fine & Uncirculated. 2 pieces.
- 2618 1901. Brilliant Proof.
- 2619 1901-O & S. Uncirculated. 2 pieces.
- 2620 1902. Brilliant Proof.
- 2621 1902-O & S. 1904-S. Uncirculated. 3 pieces.
- 2622 1903. Brilliant "gem" Proof. A date that has lately increased in popularity and now catalogues at \$30.
- 2623 1903-O. Uncirculated, lightly toned; marred only by two tiny edge nicks at lower obverse. Hardly ever comes better than this. Probably the most famous date of the Morgans. Very Rare.
- 2624 1903-S. Very Fine or better, with same mint lustre, but also with the regularly found handling marks. Edge nick opposite tenth star.
- 2625 1904. Brilliant proof. One of the most popular Philadelphia Mint dates.
- 2626 1904-O. Brilliant Uncirculated, with faint traces of the usual bag handling marks. Not fully struck up in centers, but this is not really an impairment. This piece has high records.
- 2627 1921-P, D & S. Morgan. Uncirculated. 3 pieces.
- 2628 Complete set of Peace Dollars, all brilliant Uncirculated, mounted in three small album pages. Most of them show the usual slight traces of bag handling. The 1925 and 1934-S are fully up to the standard of the rest, the 1925 in fact being unusually choice and almost free from the minute nicks which generally impair the appearance of these large, heavy coins. Retails at \$115, but as a set this group should be worth a premium. Excellent for display. 24 pieces.

THE EXCESSIVELY RARE 1884 TRADE DOLLAR

- 2652 1884. Same type as regular issue. At the turn of the century these coins were practically unknown. When these were discovered by a Philadelphia dealer the supposition was that 10 were struck. We doubt very much if there is more than 5 or 6 known. Splendid proof. Extremely rare. We would not be surprised if this coin realizes in excess of \$3000.

U. S. PATTERN DOLLARS

- 2653 1851. Regular Dies. Liberty Seated. Copper Restrike. Proof, red and olive. Listed as A. W. 144; about five or six supposedly struck. Marred only by two minute nicks on knees. Recent records to about \$135. Very rare.

SETS OF PATTERNS

- 2718 1873. Complete original set of the six pattern trade dollars of this year as sold by the Mint; choice and brilliant silver proofs with reeded edges. Six different obverses and six different reverses. A. W. 1298, 1303, 1308, 1313, 1318, with reverse of 1247, and 1324. About fifty sets were originally made, if the Adams rarity rating can be believed, and almost all of them have been broken up. This is one of a very few that have been preserved intact. The individual coins bring in excess of \$50 a piece at retail. This is the first time a set has been offered intact in many years. We value it tentatively at \$500, but it may be worth much more to discriminating collectors, and will make a magnificent display item.
- 2719 1859. Complete original set of the half-dollar designs by Paquet and Longacre as proposed for adoption that year and as sold by the Mint in sets. Silver; lightly toned Proofs. A. W. 291, 293, 295, 297. Though the single coins are not rare, the original sets are of very great rarity since almost all of them have been broken up. Four pieces.
- 2720 1859. Identical set to last, but the four pieces are toned red copper Proofs. A. W. 292, 294, 296, 298. Just as rare as the last as a set, and just as beautiful an item for display. We suggest that the collector lucky enough to land the last set buy this also so he can show the four different and beautiful reverses. As separate items these four pieces would retail for above \$60. As a set, far more valuable. Four pieces in folder.
- 2721 1861-2-3. Set of the six GOD OUR TRUST patterns, all in copper. A. W. 348, 350, 358, 360, 375, 377. Different from the A. W. description, in that these are not bronzed. Rarer than commonly supposed. The six coins would retail separately for nearly \$90 but would be very hard to assemble, as the two 1861's are rarer than the rest.

- 2722 1858. Complete original set of the twelve proposed designs for the cents of the year (three obverses and four reverses) as sold by the Mint. Obverses respectively large (regular) flying eagle, small letters; small flying eagle; and Indian head. Reverses, tobacco wreath as on the 1856-7-8 adopted cents, oak wreath with ornamental shield as on the 1856 cent A. W. 209, oak wreath without shield, and laurel wreath as on the adopted 1859 cent. There were less than 75 sets struck in 1858, and most of them have been broken up long ago, because the first coin (the adopted design of the year) was sought by collectors of regular cents, and is today a \$75 item by itself. The present set is the first one offered in the last 35 years. The coins, if offered separately, would aggregate close to \$1000. As a set, this lot is extremely rare and immensely more valuable. Beautifully toned copper-nickel proofs. 12 pieces in holder.
